# Animal Emergency & Referral Associates

Fairfield, New Jersey

*For over 30 years, more than 200 veterinary practices throughout Northern New Jersey have come to know and rely upon AERA's outstanding emergency services.*

## Animal Emergency & Referral Associates

Our veterinarians are experienced professionals with career interests in emergency medicine and specialty care. Nights, weekends and holidays when your regular veterinarian is unavailable, our staff provides outstanding emergency veterinary care.

**You do not need an appointment for your pet to be seen by the emergency service.** Clients are seen in order of arrival and we diligently try to keep your wait to a minimum. Life-threatening emergencies occasionally do arise and must be dealt with immediately. We ask for your patience during these periods.

If your pet requires hospitalization, he or she will receive the very best of care, with a veterinarian on duty at all times. You will receive a written estimate of costs prior to hospitalization that outlines services that will be provided.\* If your pet is in need of a Veterinary Specialist and hospitalized, you will receive a separate estimate for services. All Specialty Service transfers will be coordinated with your family veterinarian.

*\*Please note that unless your pet is transferred to the Specialty Service Department, we do not hospitalize animals when the Emergency Service Department is closed.*
